## Experience

Senior Frontend Developer

Oct 2017+

### NetDoktor

As part of the NetDoktor team, I was involved in the release of new platforms and standalone tools as well as the redesign and migration of existing ones to a new stack. I proactively improved performance, SEO, and ensured compliance with ads, tracking, and GDPR. Guiding the frontend development process, I recognized and addressed points of improvement in code and processes, while anticipating and resolving issues for upcoming features.
